EXPERIENCE

Freelance (Remote) - Frontend Engineer

- Product design for clients using Adobexd and Figma.
- Built web and mobile interfaces.

Evimero Media (Remote) – Software Engineer 1

- Designed and built frontend pages.
- Created and maintained company repository. I merged, closed and reverted pull requests as appropriate, and resolved multiple merge conflicts.
- Fixed multiple bugs.
- Improved performance of previously built websites and web applications by using latest frontend technologies.

Tools Used: Vue.js // Bootstrap // HTML // CSS

Curacel Systems, Yaba, Lagos State - Junior Developer Associate

- Developed frontend features for the processing platform and other app landing pages.
- Wrote product documentations using Atlassian's confluence that helped track all product updates.
- Software quality assurance testing.
- Designed and built a bot that helped us save time by sending emails for booking meeting spaces ahead.

Tools Used: HTML // CSS // Bootstrap // Vue.js // PHP laravel

Google Africa Developer, Mentor - Mobile Web Specialist

- Assisted learners by offering technical support.
- Monitoring and tracking progress.

SKILLS

Core: JavaScript (Vue.js, Node), HTML, CSS, Bootstrap, TailwindCSS

Familiar with: PHP-Laravel, React.js, MongoDB, Python.

EDUCATION

JANUARY, 2015 - DECEMBER, 2019

The Federal University of Technology, Akure, Ondo State

Bachelor of Technology, Building Technology(Hons)
