

# ABISOYE ALLI-BALOGUN

**Phone:** (+234) 8031329880

**Email:** abisoyeoladayo@gmail.com

## EXPERIENCE

### **SystemtrustNg, Lagos.** - *Frontend developer*

- Heavily involved in the planning of our coming battery health monitoring application.
- Developed, and deployed a web app for a bank that monitors their ATMs in specific locations across the country using designated IP addresses.

### **Declutter, Canada** - *Frontend Engineer/UX Researcher (contract)*

- Orchestrated, redesigned, and developed the frontend infrastructure based on results from user experience research.
- Exceeded client's estimation and expectation with regards to completion time and budget.
- Beta testing and surveys.

### **Evimero Media, Lagos** – *Frontend Web Developer*

- Developed, and deployed our web application.
- Created and maintained company repository.
- Improved performance of previously built websites by reducing server response time and using asynchronous loading for CSS and JavaScript files.

### **Curacel Systems, Lagos** - *Junior Developer Associate*

- Developed frontend features for the claims processing platform.
- Product update documentation using Atlassian's confluence.
- Software quality assurance testing.
- Designed and built a mail bot that automated bookings and responses.
